

## ACS

### Gas Skills Training and Assessment

#### Information Sheet

<b>Title</b>	CCLP1 B (Boats)
<b>Duration</b>	Initial            6 days Renewal           4 days
<b>Aims and Objectives</b>	A training and assessment programme designed to clearly identify the skills and knowledge required by a competent person, to carry out installation, commission, service and repair of gas systems and appliances installed in domestic and small commercial premises.
<b>Scope</b>	This programme is intended for experienced gas operatives. Candidates must be able to satisfy the requirements of the ACS Scheme Rules, contact us for full details.
<b>Training</b>	<p>The training programme will utilise our <i>Boats and Inland Waterway Craft</i> specific training manual (300+ pages) and encompass the following topics:</p> <ul style="list-style-type: none"><li>• Gas Safety (Installation &amp; Use) Regulations 1998</li><li>• Relevant Health &amp; Safety Regulations</li><li>• RIDDOR</li><li>• Properties and characteristics of LPG</li><li>• Complete and incomplete combustion</li><li>• Gas storage</li><li>• Tightness testing procedures</li><li>• Gas input rating</li><li>• Ventilation requirements</li><li>• Open, closed and balanced flues</li><li>• Dealing with unsafe situations</li></ul>
<b>Competence</b>	The candidate's knowledge and understanding of the subject will be established by the application of a multi-choice theoretical question papers and completion of specified practical tasks.
<b>Assessment</b>	The assessment will be conducted by an assessor qualified to A1 or equivalent standard.
<b>Verification</b>	The assessment process will be verified by an internal verifier qualified to V1 or equivalent standard.
<b>Certification</b>	The programme will be certificated by LPG Training. A certificate of competence will be issued to successful candidates. Photo ID cards are available at extra cost.

Alternatively we can arrange certification through Logic Certification Ltd – A Certification Body accredited by UKAS as compliant with the requirements of BS EN ISO 17024. Please inform us of this preference at the time of order as this will involve additional time and cost.
