### Gas Skills Training and Assessment

#### Information Sheet

<b>Title</b>	CONGLP1 - Natural Gas to LPG Changeover Modules available: PD, RPH, LAV, Boats
<b>Duration</b>	Initial 2 days Renewal 2 days
<b>Aims and Objectives</b>	This LPG training course is intended for operatives who currently hold a CCN1 natural gas qualification and wish to carry out work on installations and appliances supplied by LPG. This qualification will convert all existing natural gas qualifications to their equivalent LPG counterparts. Example, if you currently hold CCN1 + CKR1 (natural gas cookers) after successful completion of this course you would be permitted to carry out work on cookers fuelled by LPG.
<b>Scope</b>	This programme is intended for experienced gas operatives. Candidates must hold a natural gas ACS qualification CCN1 or COLPNG1, contact us for full details.
<b>Training</b>	The training programme will utilise our <i>Changeover Natural Gas to LPG</i> specific training manual (300+ pages) and encompass the following topics: <ul style="list-style-type: none"><li>• Gas Safety (Installation &amp; Use) Regulations 1998 (pertaining to LPG)</li><li>• Relevant Health &amp; Safety Regulations</li><li>• Properties and characteristics of LPG</li><li>• Safe handling</li><li>• Gas storage</li><li>• Pressure, regulators and associated LPG controls</li><li>• Standing and operating pressure</li><li>• LPG pipework and flexible hoses</li><li>• Tightness testing procedures</li><li>• Bulk storage supplies</li><li>• Cylinder supplies</li><li>• Dealing with unsafe situations</li></ul>
<b>Competence</b>	The candidate's knowledge and understanding of the subject will be established by the application of a multi-choice theoretical question papers and completion of specified practical tasks.
<b>Assessment</b>	The assessment will be conducted by an assessor qualified to A1 or equivalent standard.
<b>Verification</b>	The assessment process will be verified by an internal verifier qualified to V1 or equivalent standard.
<b>Certification</b>	The programme will be certificated by Logic Certification Ltd – A Certification Body accredited by UKAS as compliant with the requirements of BS EN ISO 17024.
